Applications

Linear light

Description

FMS-40-450 N-S LD EXC is a 40W constant current LED driver that operates from 198-264Vac input with 100 to 450mA output current. The output current is adjustable by DIP Switch. With it's dimensions from 168 x 30 x 21mm. It is easy to integrate in linear light products. To ensure trouble-free operation, protection is provided against output short circuit, over voltage and over temperature.

Note	1.All parameters not specially mentioned are measured at 230VAC input, full load and 25°C of ambient temperature. 2.Ripple & Noise are measured at 20MHz of bandwidth by using a 300mm twisted pair-wire terminated with a 0.1uF & 47uF parallel capacitor. 3.Switch and dimmer are not recommended to connect between this product output and luminaries.
